

## The European Hockey Federation's (EHF) "Camp of Excellence"

For athletes ages 14 to 18 years old

We call this an "immersive" program, because it places you in the middle of the action with 100 other European and international players. This sets it apart from other sport tours.

In addition, the camp is longer in duration than USA camps and our other Dutch camps. 9 -days. This allows you, as a player, time to work-on and comfortably integrate new skill-sets into your game as well as tweak and improve established ones.

The coaches who attend are the best. Primarily because it is offered as a reward to those European coaches who throughout the year, have performed and met the highest standard. These coaches want to be here, in Barcelona!

**The "Camp of Excellence"** is the premier talent camp designed by, and for, the European Hockey Federation. It is operated by our Dutch partner, Thomas Tichelman, and held in Barcelona, Spain.

In Spain, the upper-class play hockey, and that is reflected in the affluence and atmosphere of where you, live, train and play at Atlètic Terrassa Hockey Club; with three artificial turf fields, an indoor and outdoor swimming pool, exercise/gym room, yoga room, indoor field hockey arena and restaurant. It's impressive. As a bonus, unlike the Holland camps, you can always count on the weather here to be fantastic.

This EHF talent camp has a dedicated GOALIE program too!

While some may think this is a good place to practice their Spanish, to some extent that may be true, however, because the Camp has participants attend from all over Europe, the common language of communication and instruction is English.

As with all our immersive programs, we have great sightseeing included. You start your stay with a day in the old medieval walled city where we sightsee, get over jet lag and bond as a group. The Camp will also visit, on two afternoons, the beach and parks. You get it all at this camp.

**All Inclusive - Fully Chaperoned - Over, During & Back.**

We've been registering U.S. players here for 18 years and it's a fan favorite. Find out why. Talk with Tori.
